

**FAMILY MEDICAL
PRACTICE
VIETNAM**

Your health. Our care.

Family Medical Practice, the first foreign operated, multi disciplinary medical provider in Vietnam opened in Hanoi in 1994. It was a private clinic established by an Israeli doctor, Dr. Rafi Kot who at first arrived in Vietnam in 1989 as a German NGO doctor.

Hanoi Dental Clinic opened in 1996, the HCMC Family Medical Practice in 2001, the Da Nang Family Medical Practice in 2004 and the HCMC Family Dental Practice in 2005. In November 2007 our newest clinic, Care1 Executive Health Care Center opened at the Manor in HCMC. A multi-national team of foreign physicians from Argentina, Australia, Belgium, Canada, France, Israel, Italy, Japan, the Philippines, UK, and the US provide exceptional health and dental care and emergency medical evacuations to the expatriate community. Over the last five years the number of Vietnamese patients to the clinics has significantly growing as well. Family Medical Practice has accumulated over 50 years of experience in South East Asia; our team has the knowledge and expertise to give you confident that any health concern or emergency will be handled in the compassionate, professional and confidential manner. We pride ourselves on the ability to provide the highest standard of care with latest equipment to ensure we provide the most accurate and efficient diagnostic tools. Family Medical Practice is affiliated with Singapore's National University Hospital and Tan Tock Seng Hospital and has direct billing agreements with over 30 global health care insurance companies. Acupuncture treatment is also available at Care1 Executive Health Care Centre in HCMC.

With our experience in health care in Vietnam, the quality of physicians we have, and with the reputation we have earned, we can truly say no one knows Vietnam like Family Medical Practice.
